

# Jon Bennett

*MasterPlan Stewardship Consultant*

February 2010

Jon customizes every campaign so that each ministry will reach greater heights in stewardship, teamwork, and leadership.

## Commitment to Vision

Jon Bennett builds strong, personal partnerships with pastors who are leading growing churches. His wealth of ministry coaching experience, stewardship knowledge, team building, and leadership development brings energy and creativity to his work. An excellent listener, strategist, speaker and coach, Jon knows that the “one size fits all” approach does not work. He customizes every campaign so that each ministry will reach greater heights in stewardship, teamwork, and leadership..

## Ministry Experience

Jon has helped raise millions of dollars to fund missions projects, church plants, building campaigns, and campus outreaches. Jon draws from his experience as a senior staff member of an 8,500-member mega church in Atlanta, an associate pastor of a 300-member church, and as senior pastor of a successful church plant. He understands the importance of cultivating high capacity donors as well as instilling a love of giving in each person, regardless of their income, because “it’s not about equal giving but equal sacrifice.”

Jon holds a bachelors degree in communications from Michigan State University and a masters of theology. He and his family make their home in the metro Atlanta area.
